Idan Baron

Life is a beautiful software
Rotterdam, South Holland, Netherlands

Summary

A highly motivated, autodidact, and a problem solving Full-Stack programmer with a creative mind, seeking a position at a leading tech company. I have a high work ethic and would love to be in a leading team, learning from the best. Give me a challenge and I won't rest until I'll solve it.

Curiosity is my drive in life. To learn and discover is my passion. Since I was a child, I loved to take things apart, just to see how they work inside, and then assemble it back together correctly - that gave me huge satisfaction. Today I do the same with all fields of life. I believe in humanity and accepting each person as a personality, not as a brand, in addition, I admire sociology and the behavior of crowds and groups.

My Technical Skills:

React & MobX, WordPress, Typescript, JavaScript (ES5/6), jQuery, HTML, CSS, MaterialUI, PHP, Node.js, Express, MongoDB, MySQL, WebRTC, Git, Github, Heroku, AWS.

Experience

Self-employed

Independent Fullstack Developer | Engineering Manager | Creative Problems Solver

May 2024 - Present (1 year 3 months)

Netherlands

Sitly

3 years 10 months

Engineering Manager

September 2023 - April 2025 (1 year 8 months)
